Frontend Frameworks: React.js, Next.js, Angular, Bootstrap, Tailwind CSS
Databases: PostgreSQL, MySQL, SQL, Supabase, MongoDB, Neon
Tools & Technologies: Docker, Git, GitHub, Postman, Pytest, Swagger, Clerk

WORK EXPERIENCE

Freelance Front-End Developer | Self-Employed | July 2023-Present

- Delivered front-end solutions for startups and growing businesses by translating client requirements into responsive, high-performance web applications using React and Next.js. Worked across multiple project types to build clean and functional user interfaces.
- Startup Web Apps:** Developed full front-end architecture for early-stage startups, focusing on scalability and smooth user experience.
- E-commerce Sites:** Built responsive online stores with intuitive product layouts and seamless navigation.
- Landing Pages:** Designed and developed conversion-focused landing pages with strong performance and clean design.
- Dashboards:** Created interactive dashboards to help clients monitor, manage, and visualize their business data efficiently.
- LMS System:** Built a Learning Management System with structured course layouts, user progress tracking, and an intuitive interface for both learners and instructors.

PROJECTS

LeadNite — Startup Website | React & Next.js

- Developed a modern, responsive website for a startup to establish their online presence.
- Focused on clean UI, fast load times, and smooth navigation to engage potential users.
- Implemented reusable components for easy content updates and scalability.

WeddingAisle — Wedding Platform | React & Next.js

- Built a wedding services platform connecting couples with vendors and planners.
- Designed an intuitive browsing experience with clean layouts and smooth user flows.
- Developed responsive pages optimized for both desktop and mobile users.

LMS System — Learning Management System | React & Next.js

- Developed a full front-end for a learning platform with structured course and module layouts.
- Built user progress tracking and an intuitive dashboard for learners and instructors.
- Ensured a clean, distraction-free interface to improve the overall learning experience.

Chat Application: React & Next.js

- Developed a real-time chat application with a clean and responsive messaging interface.
- Built features including one-on-one messaging, chat history, and online status indicators.

EDUCATION

Bachelor of Computer Science | August 2022- June 2026
University of Engineering & Technology, Taxila, Pakistan
